Time	Events	
Tuesday-Thursday 13-15 May		
Three Days	Pre-Study Tour	NO 1: Along Yangtze River :from Gezhouba Project to Shuibuya CFRD and Three Gorges Project NO 2: Along Dadu River: from Shuangjiangkou Dam to Houziyan CFRD
Thursday 15 May		
Full day (9:00-17:30)	Meeting of ICOLD Board	
Friday 16 May		
Morning (9:00-12:00)	9:00-12:30 Meeting of ICOLD Board	
	Short Course	No.1: Digital intelligence design of hydropower engineering No.2: Hydropower stations and reservoirs dispatching and control No.4: Design and construction of Rock-Filled Concrete Dam
Afternoon (14:00-17:00)	Meeting of TC Chairpersons	
	Short Course	No.1: Digital intelligence design of hydropower engineering No.2: Hydropower stations and reservoirs dispatching and control No.3: New hydraulic challenges of water projects at mountainous river No.4: Design and construction of Rock-Filled Concrete Dam
	City Tour	Route A: Chengdu Museum,Kuanzhai Alley Route B: Research Base of Giant Panda Breeding Center
Evening (18:00)	TC Chairpersons Dinner	
Saturday 17 May		
Full day (8:00-17:00)	City Tour	Dujiangyan Project and Mount Qingcheng
Morning (8:00 or 8:30, 9:00 – 12:00)	Workshops organized by ICOLD TCs	Advanced Numerical Modeling Applied to Dam Engineering(TC A)
		Seismic Analysis Methods for Embankment Dams(TC B)
		Experience and practice of CFRD: a 40 years review (TC E)
		Analysis and simulation of dam failure flood(TC H)
		Reliability based Preservation Concept and Challenges for Historical Dams(TC HWS)
		Cascade Hydropower Stations and Reservoirs Forecasting and Dispatching Technology and Its Application(TC K)
		Safety management of tailings dams(TC L)
		Levee news from around the world: presentations from TC members about levees, flood defences and flood events(TC LE)

		Operation, Maintenance and Rehabilitation of Dams(TC M)
		Public Awareness and Education Examples of Successful Communication Strategies(TC N)
		Cemented Material Dams(TC P)
		Flood Evaluation and Smart Operation of Water Infrastructures(TC S)
		After 15 Years of Contribution: What we learned together and what can we do next?(TC Y)
		Dam and Water Resources Management in the Context of Energy Transition (ZX2 & TC-U)
Noon (11:00-13:30)	APG Workshop	Workshop on Dam Upgrading for Climate Resilience and Energy Transition
Afternoon (14:00-18:00)	Workshops organized by ICOLD TCs	Chutes, stilling basins, upgrading and surveillance of spillways(TC C)
		Compaction of Earthfill in Embankment Dams(TC E)
		Experience and practice of CFRD: a 40 years review (TC E) *(continued)*
		Analysis and simulation of dam failure flood(TC H) *(continued)*
		Progress of the bulletin on dam safety risk assessment and the bulletin on dam safety guideline(TC H)
		Safety management of tailings dams(TC L) *(continued)*
		Strategic planning for the TC LE terms of reference updates: listening session(TC LE)
		Operation, Maintenance and Rehabilitation of Dams(TC M) *(continued)*
		Flood Evaluation and Smart Operation of Water Infrastructures(TC S) *(continued)*
		Floating PV on dam reservoirs(TC T)
		Capacity Building in ICOLD(TC Z)
Sunday 18 May		
Morning (9:00-12:00)	TC Meeting	TC A: Computational aspects of analysis and design of dams TC B: Seismic aspects of dam design TC C: Hydraulics for dams TC D: Concrete dams TC E: Embankment dams TC G: Environment TC H: Dam safety TC I: Public safety around dams TC J: Sedimentation of reservoirs TC K: Integrated operation of hydropower stations and reservoirs TC L: Tailings dams & waste lagoons

		TC M: Operation, maintenance and rehabilitation of dams TC N: Public awareness and education TC O: World register of dams and documentation TC P: Cemented material dams TC Q: Dam surveillance TC S: Flood evaluation and dam safety TC T: Perspective and new challenges for dams and reservoirs in the 21st century TC TRS: Tropical residual soils TC U: Dams and river basin management TC V: Hydromechanical equipment TC Y: Climate change
	Workshops organized by CHINCOLD	Reservoir dams and novel power system
		Hydro-wind-solar-PSH hybrid power base
Noon (12:00-13:00)	YPF	Lunch with Mentors
Afternoon (13:30-16:30)	TC Meeting	TC B: Seismic Aspects of Dam Design*(continued)* TC C: Hydraulics for dams*(continued)* TC D: Concrete dams*(continued)* TC E: Embankment dams*(continued)* TC G: Environment*(continued)* TC H: Dam safety*(continued)* TC HWS: Historical Water Structure (Water Heritage) TC I: Public safety around dams*(continued)* TC J: Sedimentation of reservoirs*(continued)* TC LE: Levees TC L: Tailings dams & waste lagoons*(continued)* TC M: Operation, maintenance and rehabilitation of dams*(continued)* TC N: Public awareness and education*(continued)* TC Z: Capacity building and dams TC P: Cemented material dams*(continued)* TC Q: Dam surveillance*(continued)* TC S: Flood evaluation and dam safety*(continued)* TC T: Perspective and new challenges for dams and reservoirs in the 21st century*(continued)* TC U: Dams and river basin management*(continued)* TC V: Hydromechanical equipment*(continued)* TC Y: Climate change*(continued)* TCZA1: World declaration on the role of dam in the energy transition and climate change TCZA2: Gender diversity and inclusion 15:00-18:00 TCZX2 (YPF): Young engineers
	Workshops organized by	Reservoir dams and novel power system *(continued)*
		Constituting river ethics and building ecological dams

	CHINCOLD	Innovation and practice in dam engineering under complex geological conditions
	16:30-18:30 Regional Clubs Meeting(Asia-Pacific)	
	16:30-18:30 Regional Clubs Meeting(Africa)	
	16:30-18:30 Regional Clubs Meeting(Europe)	
	16:30-18:30 Regional Clubs Meeting(America)	
	18:00-19:00 Dams and sustainability coordination committee meeting	
	18:30-19:30 French-speaking Committees Meeting	
Evening (19:00-22:00)	Young Professionals' Night	
Monday 19 May		
Morning (8:30-12:00)	International Symposium: Opening and keynote presentations	
Noon	12:00-12:30 Exhibition Opening 12:30-13:40 Workshop organized by TC on Gender Diversity and Inclusion (with lunch)	
Afternoon (14:00-18:00)	International Symposium for T1	
	International Symposium for T2	
	International Symposium for T3	
	International Symposium for T4	
	International Symposium for T5	
	15:00-16:00 Press Conference	
	16:00-18:00 ILDE Workshop	
	16:30-17:30 Congress questions officers meeting	
	Exhibition	
Evening (19:30)	Welcome Reception	
Tuesday 20 May		
Full day (9:00-18:00)	Technical Visit (8:00-17:00)	Route A:Dujiangyan Project and Mount Qingcheng Route B: Zipingpu Dam and Lijiayan Dam
	General Assembly	
	Exhibition	
Morning (8:30 or 9:00-	Workshops organized by	Digital and intelligent technologies for dam design, construction and maintenance

12:00)	CHINCOLD	The benefits of reservoirs and dams in regional economy
		Dam design and risk management based on safety and resilience concept
		Challenges and countermeasures of reservoir sedimentation
Afternoon (14:00-18:00)	Workshops organized by CHINCOLD	Digital and intelligent technologies for dam design, construction and maintenance*(continued)*
		Ancient dams and human civilization (13:30-18:30)
		Development and prospect of pumped storage power stations
		Termites control technologies
		Integrated water resources management and green hydropower development
	Cultural Event	19:30-22:00 Jinsha Site Museum
Wednesday 21 May		
Morning (8:30-12:30)	28th Congress Opening Ceremony	
	Question 108 and109: General Reports	
	Exhibition	
Afternoon (14:00-18:30)	Question 108 *Theme 1 - Dams, reservoirs and Climate change adaptation. A global perspective* *Theme 2 - Dams and Reservoirs for Pumped Storage Hydro*	
	Question 109 *Theme 1 - Management strategies and government legislation* *Theme 2 - Foundation sustainability*	
	Meeting of IHA Board	
	Exhibition	
Evening	EuroCOLD Networking event with Carpi	
Thursday 22 May		
Morning (8:00-12:30)	Question 108 *Theme 3 - Off-stream Reservoirs and Reservoir adaptations to CC* *Theme 4 - Climate change adaptation: the "think-out-of-the box" session*	
	Question 109 *Theme 3 - Innovations in Dam safety* *Theme 4 - Dam safety enhancement by monitoring and rehabilitation*	
	Exhibition	
Afternoon (14:00-18:30)	14:00-16:00 Question 110 and 111: General Reports	
	16:30-18:30 Question 110	

	Theme 1 - Prediction of extremes – accounting for uncertainty and historical incidents	
	16:30-18:30 Question 111 *Theme 1 - Seismic Design of Dams*	
	Exhibition	
18:30-20:00	Forum on World Declaration (Co-hosting Session IHA, CHINCOLD and ICOLD)	
Friday 23 May		
Morning (8:00-12:30)	Question 110 *Theme 2 - Assessment for the safety of structures for extreme conditions* *Theme 3 - Mitigating the risk : assessing and enhancing the resilience of the structures*	
	Question 111 *Theme 2 -Earthquake Performance and Safety Evaluation of Existing Dams* *Theme 3 - Seismic Design and Safety of Concrete Dams*	
	Exhibition	
Afternoon (14:00-18:00)	14:00-16:00 Question 110 *Theme 4 - Mitigating the risk – the integrated flood management approach*	
	14:00-16:00 Question 111 *Theme 4 -Seismic Design and Safety of Embankment Dams*	
	16:30-18:00 Closing Ceremony	
Evening(19:30)	Farewell Dinner	
Saturday -Tuesday 24-27 May		
3-4 Days	Post-Study Tour	NO 1: Along Yangtze River—from Gezhouba Project to Three Gorges and Danjiangkou Dam NO 2: Along Dadu River from Shuangjiangkou Dam to Houziyan Dam NO 3:Along Yalong River From Jinping I Hydropower Station to Kala Hydropower Station NO 4:Along Yellow River(middle) From Yellow River Museum to Xiaolangdi Project to Sanmenxia Project NO 5: East China from Liyang pumped-storage power station to Liangzhu Archaeological Site, Xinanjiang Hydropower Station and National Water Museum of China
