

## More About Cookies

---

This website uses cookies to ensure that we give you the best experience on our website. By continuing to use the website you are consenting to the use of cookies.

## Cookies

To make this site work properly, we sometimes place small data files called cookies on your device. Most big websites do this too.

## What are cookies?

A cookie is a small text file that a website saves on your computer or mobile device when you visit the site. It enables the website to remember your actions and preferences (such as login, language, font size and other display preferences) over a period of time, so you don't have to keep re-entering them whenever you come back to the site or browse from one page to another.

## How do we use cookies?

We use cookies to remember users' actions and to identify the user. They are essential for the websites functionality to work and they aim to enhance the performance of the website. We use session, first and third-party cookies. We control cookie-related information, except for third party cookies.

Cookies will not be used for any purpose other than the one stated.

## How to control cookies

You can control and/or delete cookies as you wish. You can delete all cookies that are already on your computer and you can set most browsers to prevent them from being placed. If you do this, however, you may have to manually adjust some preferences every time you visit a site and some services and functionalities may not work.

For more details, here is an article from [pcmag.com](https://www.pcmag.com) by Eric Griffith and Chandra Steele on "[How to Control and Delete Cookies on Your Browser](#)".
